SB 1

Dear Catherine,

I am so happy to hear that you and your family are visiting Hurghada in the spring! It is a wonderful place for a holiday. There is a lot to do and many different places to stay. You can camp, stay in a hotel or in the new youth hostel. It is very modern and comfortable, but much cheaper than the hotels. You can find out information at the tourist information centre. You should go there when you arrive. It is next to the police station in the middle of the new part of the city.

Hurghada has some beautiful beaches. When it is windy, you should definitely try windsurfing, too. Take a boat trip to the islands around Hurghada. You can go scuba diving or snorkeling. You can also go fishing from a boat.

You shouldn't walk too much in the sun. It is best to visit places early in the morning. Don't forget to go to the bazaar in the old part of the city. It is a good place to buy souvenirs.

Have a great time!

Salma

The trees are the first living things that Hassan has seen in five days. The Wind is blowing and the leaves on the trees are trembling, like him. He is tired and weak.

A few hours before he arrived here, Hassan thought he was going to die. There was no food in the desert and he knew that the little water he had would not last another day.

Now he knows that he will find water, because if there are trees, there must be water somewhere. But he still doesn't know where he is. How far is it to the nearest road, where he might find help?

The sun is going down quickly and he knows it will be cold for the next eight hours. How can he stay warm for another night in the desert?

Suddenly, he sees something. Someone is carrying a light towards him. He realizes that it is a man. Finally, help has arrived. He is safe.

Listening

SB 8

Nadia : Did you like the end of the story?

Salma : I am not sure I understand it. Who is the man with the light? And why does it say that the leaves are trembling? people usually tremble when they feel excited or frightened, not leaves.

Nadia : Hassan is trembling because he is tired and weak. He has been in the desert for five days. I don't think the writer is saying that the leaves feel frightened when the wind comes, but they are moving in the same way as Hassan because he is so tired.

Salma : How did you feel when Hassan finally saw the trees?

Nadia : It made me feel excited! You know that he will find some water because there are trees there, and they need water. We know that he won't die.

Salma : I think it is clever because we think that he will be alone in the desert for another night, but then he sees the light.

Nadia : Why do you think there is a man with a light?

Salma : I think that it is his friend Ahmed . Ahmed knew that Hassan was going in the desert and we know that Ahmed knows the desert very well. So Hassan is safe now.

Nadia : Yes, I think you are right.

Salma : How do you feel about the story now?

Nadia : I feel quite happy! I like adventure stories like this.

Daniel Defoe

You have heard of the writer, Daniel Defoe, haven't you? One of my favourite novels by Daniel Defoe is a book called Robinson Crusoe. It is about a boy who wants to become a sailor. When he grows up, he travels to many countries and has many adventures. His boat sinks and he lives for many years on an island. I liked the description of how he finds food and a place to live. Finally, Crusoe meets some other people and returns to England. Some of the story made me feel sad, but at the end I felt happy. It was a very enjoyable story and the characters are wonderful.

Spring Festivals

Spring is celebrated in different ways all over the world. It is a very special time of the year. In Egypt, Sham el-Nessim was first held to celebrate the start of spring nearly 4,000 years ago. In Japan, people celebrate when small flowers first appear on thousands of trees across the country. People go outside and have picnics under the trees with their friends and family.

In the town of Zenica in Bosnia, people have a festival of eggs in spring. Hundreds of eggs are cooked in a big pan for breakfast and these are given to all the people of the town for free.

In Australia, the start of spring is celebrated in September! In the city of Canberra, there is a month-long flower festival to celebrate spring. You can see about a million beautiful flowers in the city's main park, and you can also listen to music.

My name is Li. I am from China. My favourite festival is New Year. It lasts for about eight days. It is the most important festival for Chinese people and we start preparing for it a week before it starts. First of all, we clean our houses. We sweep and wash all the floors, doors and windows. Next, we decorate our homes with red paper lanterns. Afterwards, many people go shopping for new clothes.

There is always a special meal on the night before New Year's Day. Relatives come from far away to join their families. Lots of special New Year food is eaten, but the most important food is usually fish. Dinner is usually eaten at home, not often in a restaurant. After dinner, children are given red envelopes with some money inside by their parents. At midnight, there are fireworks and the sky is filled with colour and noise.

The next morning, on the first day of the new year, we wear our new clothes and say congratulations to our friends and neighbours. Traditionally, young people visit older people to say Happy New Year to them. At midday, there are parades where people dress up in colourful costumes. Some people wear huge lion costumes, too.

Welcome to Aswan!

Visitors to Egypt should visit Aswan, in the south of Egypt. All the guidebooks say that it is a wonderful place to spend a holiday. You can visit the Nubian Museum there. Many important and historical things were moved to the museum in the 1960's. You should visit Aswan's bazaar, too. Many things are sold here, for example clothes, nuts and fruit, flowers and baskets. Everyone should also take a trip on one of feluccas to see the beautiful Nile River.

Many tourists visit the amazing nearby temples of Philae and Kalabsha. You should take a good camera. Many photographs are taken at Elephantine Island. It has this name because the rocks next to the island look like elephants that are swimming in the Nile. There is a tourist information center near the railway station. The people there can help you to find a hotel. The best time to come is in the winter, when the temperature is about 25°C, or less if there is a cool breeze. There is little rain in Aswan. Fewer tourists visit in the summer because it is very hot.

STEM schools

Today, knowing how to use modern technology is essential because people use it every day in schools, at home and at work. It can't be easy if you don't know how to use a computer or send an email. People with many different jobs, such as teachers, engineers and scientists all need to understand how to use the latest technology.

Students who are very good at STEM subjects (science, technology, engineering and maths) can also help develop the technology of the future, STEM schools are special schools which focus on developing students' ability in these subjects. There are now STEM schools around the world where lessons are different to those in usual schools. Teachers encourage students to do projects where they work together to solve problems.

A lesson might be about how fast a ball falls through the air, or it might be using data to make a graph. Expert teachers help the students through the projects and check their results.

In Egypt, there are now STEM schools around the country and more will be built in the future. STEM school students must be hardworking. All their lessons are in English, so that they can understand and use scientific texts from around the world while they study. Experts say that there will be many more jobs in the future that need skills in STEM subjects. When they finish studying, STEM school students will be able to work in exciting jobs that will use the skills that they have learned.

Interviewer: Studying at a STEM school can't be easy- Only students who are very good at science, technology, engineering and maths can study at the schools and we have to work hard when I get there, but studying time at a STEM school must be very rewarding. Today, I have some students from STEM schools with me. They're going to tell us about their amazing achievements. First of all, Azza is going to talk about an award that she has won.

Azza : Hello! I won an award for the project that I did at my STEM school. First of all, our class studied the problems caused by polluted water around the world. I understood that people definitely can't stay healthy if they have to drink polluted water, so I also studied plants and realised that some of them can clean dirty water. I asked myself: Could this be a way to solve the problem?

Interviewer: What happened next?

Azza : I developed an invention that cleans polluted water using only plants. I am sure that this can help people living in places that do not have fresh water. After we checked that the invention worked well, I entered a science competition in the USA. I was very pleased to win an award. I think my invention might be important. Now I want to take it around the world. There is a chance that it could help millions of people.

Interviewer: I think you're probably right.

Six-year-old Abba Wael from Cairo couldn't do her maths homework one evening. Her father was helping her when her younger brother came into the room. Mahmoud couldn't speak very well yet because he was only three. However, he was able to give all the answers to the sums.

Mahmoud's father was sure that his son was a genius. Soon, TV channels heard about his amazing maths skills and invited him to be on their shows.

When Mahmoud was seven, the American University in Cairo helped him to improve his English because it would help him to study maths at a high level. After only three months, he could read, write and speak English quite well.

One day, Mahmoud walked past a class that was studying computer programming at the university and he could understand the lesson. Soon one of the biggest computer software business in the world became interested in Mahmoud because he was so intelligent. He studied computer programming and got several awards. An Award to -----

I would like to give my mother an award because she is the best mother in the world.

Because she looked after me and my brother and sister, she wasn't able to go to university

when she was younger. However, she started studying online two years ago and she has done very well in her exams. She wants to become a teacher one day and teaches young children.

She should get an award because she has shown us that it is possible both to be a good parent and to achieve things for yourself.

Robots in our Life

Scientists, have used robots for a long time. Some robots dive under water to study the sea: others are sent inside volcanoes to study places that are dangerous. In 2012, a robot went to another planet to study the soil and gases there.

Personal robots are designed to help people with jobs at home. They include robot Vacuum cleaners to clean floors and lawn mowers to cut the grass in parks and gardens.

Now, an engineer has designed a robot that can recognize people. When you speak, it will answer! It will hear your voice and turn its head in order to look at you. It will say hello to you when you come home and it can read a story to children. It can give a message to the right person in the family. It can even remind you to send your e-mails.

Some robots are designed to have friendly faces so that children will think they are toys. These robots are very useful in hospitals where they can entertain children and help them to feel better.

- Student : I have got a lot of ideas of some inventions already.
- Teacher : That is very good. But don't forget that the idea is the easiest part of a project. One you got an idea, you have to think about the design, then you have to do several experiments and test them to see if they work.
- Student : What kind of ideas are you looking for in the competition?
- Teacher : It is necessary for you to be something different, do some research and find out if your idea is completely new.
- Student : It is difficult to think of something to invent.

The Invention of Ships and Sails

In ancient Egypt, like today, most of our important cities were built along the Nile. For this reason, people have used the river for transport for many years. The people also became experts at building boats.

Early boats

* In around 4000 BCE, the ancient Egyptians made small boats from Papyrus. They used Oars to move them forwards.

Wooden boats and Sails

* Later, they used wood tied together with ropes to build boats. They also invented the first sail in order to move faster up the river when the wind blow.

Transport ships

* In around 2500 BCE, people began to build larger and stronger boats. Ships could travel across the sea to sell goods in other countries.

Steam and oil

* Ships needed the wind until the early 1800s, when the first steamships began to cross the seas.

* In the twentieth century, oil was used to take powerful ships around the world.

The ancient Egyptian year had three seasons. It's essential to remember that calendars were very important in ancient Egypt. Farmers needed to know when to plant crops.

In addition, they needed to know when the Nile was going to flood.

I want to emphasise how important food was at this time. Don't forget that many people would starve if the crops did not grow. The Egyptians invented the calendar so that they could plant their crops at the right time. The calendar had twelve months of thirty days, which is 360 days a year. They also had five holidays!

James Dyson was born in 1947. In the 1960s, Dyson studied how to design things at a university in London. In the 1970s, Dyson began to invent machines to help people in the house.

His most famous invention is a new kind of vacuum cleaner. It was different because it did not need bags to pick up the dust. Dyson won many prizes for his invention. Since this time, Dyson has invented other things to make things easier for people and he has also written books about his work.

The Nobel prizes

Alfred Nobel was born in 1833. He was a chemist and a great inventor. When he was a young child, Alfred couldn't go to school for many years because his parents didn't have enough money. Later, he was able to study because his father found a good job. Alfred was a very intelligent person. He could speak many languages, such as English, French and German. He also liked to read scientific books and to write stories. When he died in 1896, he left a lot of money so that people could start the Nobel Prizes. These are awards for people's achievements. It must be very rewarding to win these prizes. They are for people from all over the world who have had a great level of success in medicine, science and writing. The winners get both a small trophy and money. There is also an award for people who have worked to make the world a better place. To remember Alfred Nobel, the awards are given on December 10th, which is the day he died. Naguib Mahfouz was an Egyptian writer who won the 1988 Nobel Prize for writing. He wrote 34 novels and more than 300 short stories. Another Egyptian, Ahmed Zewail, won a Nobel Prize for chemistry in 1999.

Sports History

Some experts believe that tennis was first an Egyptian sport, because the world racket is very similar to the Arabic word rahat (hands). Other people believe that it was invented by the French in the eleventh or twelfth century.

By the thirteenth century, there were as many as 1,800 indoor courts, so people didn't have to wait for good weather in order to play. In those days, players had to hit the ball with their hands. By 1500, the game was played with a wooden racket.

The very first tennis balls were made from leather filled with horse hair or wool. Today, tennis balls are rubber and have to measure 6.54-7.3 centimeter across the middle and weigh 56-59.49 grams.

Basketball was invented in 1891 by a Canadian P.E teacher, James Naismith. In that year, he thought, "I must find a new sport for my students to play in winter, because it is too cold to play outside." The New game could be played inside any weather. James Naismith tied two baskets to poles at each end of the court. A player had to throw the ball into the basket in order to score. At first, before the bottoms of the baskets were cut off, a player had to take the ball out of the basket after he or she scored. The game is now very popular, although you must practise every day to be good at it.

The Olympic Games

Professor Younis is an expert on the history of the Olympic Games .

boy: When were the first Olympic Games held?

Professor: The first Olympic Games were held in Greece in 776 BCE so, it is a very old competition.

Boy: Have the games changed a lot since then?

Professor: Oh ! yes, There have been many changes. In the ancient Greek Olympics, there were between seven and nine sports. They are completely different now. Some sports are no longer part of the modern games.

Boy: How many sports are part of the games now?

Professor: Well, The list keeps changing, but in 2016, there were forty-one sports.

Another area where there have been big changes is in the stadiums, they become huge and very modern. Furthermore, stadiums all have news technology. So, their achievements can be managed more accurately.

Boy: How different were the ancient Greek stadiums?

Professor: Ancient Greek stadiums were not very comfortable and there wasn't even fresh water for the spectators. These days, spectators from all over the world come and watch events, but in ancient Greece only Greek spectators could watch the games.

Boy: How hard is it for today's athletes?

Professor: They work very hard. In the past, athletes only used to practise hard for about ten months before the games. These days they must work hard for years before the games.

Boy: What about the prizes the athletes win? - that hasn't changed, has it?

Professor: Yes, it has. Today the athletes win medals for first, second or third place. This is very different from the past when winners were given only leaves to wear on their heads.

Boy: How often were the games held in the past?

Professor: During ancient times, they were held every four years in the summer and always in the same place in Greece. However, today the Olympics are held in different countries every time. Although there have been changes, it is always a great achievement for athletes to compete for their countries at the Olympics that hasn't changed at all.

Have you ever wondered how the sport of surfing was invented? Although riding the waves is popular all around the world today, few people realise that it has been practised in the south seas for hundreds of years. In fact, it was not just a sport but a way of travel.

In the 1770s, the British explorer James Cook reported seeing people practising the sport of surfing in Tahiti. Surfing grew in popularity, but in 1915, it was practised officially, when a famous Hawaiian swimmer introduced the sport to Australia.

How intelligent are you?

Being very intelligent can help people to do amazing things. But what makes people intelligent? Albert Einstein was a great scientist, but in fact, he had problems with reading: he certainly was not good at everything.

Experts now think that people can be intelligent in many different ways. For example, you might be intelligent because you are very good at languages, maths or music. Some people are intelligent because they are very good at controlling their bodies. Athletes have this kind of intelligence and they can control their muscles, breathing and balance very well. Other people understand people's feelings, while others might be intelligent because they understand animals and nature. Sailors have an intelligence that makes them good at finding their way across seas or up and down rivers.

If people are intelligent in different ways, it means that they will probably learn things in different ways. Writing words on paper helps some people to learn things. Others prefer to learn by drawing pictures or diagrams. Moving or physical exercise helps some people, while others learn best by working with other people.

What is Salma's problem?

Mother: I am Salma's mother, you asked to see me! What is the matter?

Teacher: Thank you for coming to see me. Salma is doing well at school, but she doesn't always get good marks in her homework. I want to talk to you both about this.

Mother: Have you got any problems Salma?

Salma: I am afraid that I have a problem using the internet for my homework. I find it difficult to look for the information that I need.

Mother: What do you mean Salma?

Salma: When I go on the internet, I often see interesting games that I want to play online. So, I don't always do my homework.

Mother: You know you should do your homework first before you play any computer games.

Salma: The trouble is that I really enjoy computer games. It is quite hard to think about work when I know that I can get better at a computer game if I spend more time playing it.

Teacher: Let me see if I can help. Where do you keep your computer at home?

Mother: It is a laptop so Salma usually takes it to her bedroom. It is quiet there.

Teacher: Ask Salma to only use the internet in a room where you can see her. In that way you know that she is working not playing computer games.

Mother: Should I stop her playing all computer games?

Teacher: Children need to relax and some computer games can teach you things. So, it is not bad to play computer games after she has finished her homework. But she must do her homework first and remember it is much better to play a sport such as tennis or volley ball. Sports are good for the brain as well as the body

Salma: I like tennis. Let me see if I can play at the sports club next week.

Teacher: That sounds like a good idea, Salma.

Louis Braille

Louis Braille, who was born in 1809, became blind after an accident when he was three. At first, Louis went to school in his village, where his father made equipment for horses. When he was ten, he went to a school for blind children in Paris. In the school library, there were 14 books which had a system of dots instead of letters. When students touched the letters, they could work out the meaning of the words. Louis wanted to find a way to improve the system. Then in 1821, a man called Charles Barbier visited the school. Barbier, who was a soldier, showed the students his own system of dots on paper. It was used by soldiers to read and write messages at night. Louis decided to improve Barbier's system to make it easier for blind people to use. When he was 15, he wrote his first book of signs. He continued adding more signs to his system. He also made up signs for maths and music. The signs took his name: Braille. These days, new technology has made Braille even easier to use. Some computers, which can quickly change text into Braille, now have Braille printers. Electronic books (ebooks) can also be read in Braille. You can find Braille in many different languages, all over the world. There are even Braille dictionaries so that blind adults and children can look up words and find out their meanings.

- The Deaf School in Cairo was set up in 1982 for children from all over Egypt. There are about 70 children at the school, where most of them live during the week. They go home at weekends and during the holidays.
- At the school, students learn Egyptian Sign Language. They also learn reading and writing in Arabic and English, maths, science, PE. and computer studies.
- The teachers at the Deaf School believe that it is really important for deaf people to be able to communicate with people who can hear. They encourage the family and friends of deaf students to take up sign language themselves at special weekly classes for people who can hear. They also plan activities where both deaf people and people who can hear can learn about each other's lives,
- More schools are now open for deaf learners all over Egypt. Moreover, slightly deaf students are now included in general education schools so that they can be with other students that hear well.

An amazing exhibition

One day last week, our teacher handed out some information about an exhibition in London, where I live. He said that we should go if we were interested in history. The exhibition had historic jewellery and statues which are from the time of Tutankhamun. My friend Alex, who know that I love history, said, "Revising history will be easier if we go." So we both decided to go at the weekend. It took me less time to get to the exhibition than Alex, but he wasn't very late.

The exhibition was set up in a huge, famous building where people could see the amazing jewels, art and statues from different museums in Egypt. Before it arrived in London, the exhibition travelled to four other cities, where thousands of people came to see it. Understanding Egypt's history is something we all want to do! I looked up all the information that I could find about Tutankhamun before I went. I was very excited to see everything. I also found out about Howard Carter, who worked out how to find Tutankhamun in Egypt. It was very difficult for him, but he refused to stop trying and he finally discovered Tutankhamun in 1922. "Our teacher was right," Alex said when we got home. "That exhibition taught us a lot about history." This was true: it was a good recommendation.

3. Read the following, then answer the questions:

There are about 285 million people in the world who are blind or find it difficult to see. However, not many of these people can read Braille. The problem is that Braille books are not cheap. The cost of making a Braille book is four or five times more than any other book. Technology can help blind people. Some of them can listen to news and information on smartphones. There are also "talking books" which blind people can listen to. However, some blind people prefer to read. Now, you can also buy Braille ebooks. At the moment, these are difficult to make and expensive to buy. However, scientists are now working on Braille ebooks that might be cheaper than Braille books in the future. These ebooks might be the best way to help blind people. That would be good news for millions of people.

The first place that I can remember is a large field with a little **wood** at the top, where I lived with my mother and some other horses. A small river ran along the bottom of the field. If I stood at the gate to the field, I could see my **owner's** house next to a road. The owner, Farmer Grey, was a good man. He gave us healthy food and he spoke to us as kindly as he spoke to his children.

أول مكان يأتيني أن أتذكره هو حقل كبير يعلوه غابة صغيرة. حيث كنت أعيش مع أمي وبعض الخيول الأخرى. كان يوجد نهر صغير على امتداد الجزء السفلي من الحقل. إذا وقفت عند بوابة الحقل، كان بإمكانني رؤية منزل مالك

بجوار الطريق. المالك، فارمر جراي، كان رجلاً طيباً. أعطانا طعاماً صحياً وكان يتحدث إلينا برأفة كما كان يتحدث إلى أولاده

There were other young horses in the field with me, but I was the youngest. I used to run with them, and have great fun. We used to have races, and when the biggest horses got too excited, they kicked and bit the horses next to them. One day, when my mother saw what was happening, she called me over to her.

كانت توجد معي خيول صغيرة أخرى في الحقل، لكنني كنت الأصغر. اعتدت أن أجري معهم، و امرح معهم جداً. اعتدنا أن نكون لدينا سباقات، وعندما تتحمس الخيول الكبيرة حماساً بالغاً، يقوموا بركل و عضن الخيول التي بجانبهم. وفي يوم من الأيام، عندما رأيت والدتي ما يحدث، نادتني إليها

"Squire Gordon's children used to bring me apples and nice things to eat," said Merrylegs. "But when they knew that Ginger bit people, they became frightened and now they don't come to visit us horses any more. However, if people are kind to her she'll soon learn to stop biting," he explained.

The next day, Squire Gordon took me out around Birtwick Park.

"How is your new horse?" asked his wife when we returned.

"كيف حال حصانك الجديد ؟" سألته زوجته عندما عدنا.

"He is a perfect horse!" he said. "What shall we call him?"

فقال "إنه حصان مثالي!". "ماذا نسميه؟"

"He is very handsome," his wife said. "Why don't we call him Black Beauty?"

قالت زوجته "إنه وسيم جدا". "لماذا لا نسميه بلاك بيوتي (الجمال الأسود)؟"

"Yes, I like that!" said Squire Gordon. And that is how I got my name.

فقال سكوير جوردون "نعم، أنا أحب ذلك!". وبهذه الطريقة حصلت على اسمي.

On some days, I worked with Ginger, pulling carriage. Although Merrylegs said that Ginger was sometimes bad-tempered, I found that she was thoughtful. She always worked hard so that I didn't have to pull the carriage any more than she did. We soon became good friends.

في بعض الأيام، عملت مع جينجر، في سحب العربّة. على الرغم من أن ميريليجس قال أن جينجر تكون في بعض الأحيان سيئة المزاج، وجدت أنها كانت طيبة القلب. كانت دائما ما تعمل بجد حيث أنني لم أضطر لسحب العربّة أكثر مما فعلت. و سرعان ما أصبحنا أصدقاء جيدين.

One day, when I was working with Ginger, she told me about the people she worked with in the past. None of them was kind and some of them were often cruel. She decided that she did not like people and not want to do what they asked her to. The problem was that some people hit her hard when she refused to do what they wanted. That was when she started to kick and bite people. Then they wanted to sell her, and finally she arrived at Squire Gordon's.

ذات يوم، عندما كنت أعمل مع جينجر، أخبرني عن الأشخاص الذين عملت معهم في الماضي. ولم يكن أي منهم لطيف معها وكان البعض منهم في كثير من الأحيان قاسيا عليها. فقررت أنها لا تحب الناس ولا تريد أن تفعل ما يطلبوه منها. وكانت المشكلة أن بعض الناس ضربوها بشدة عندما رفضت أن تفعل ما يريدون. كان ذلك عندما بدأت في القيام بركل وعض الناس. ثم أرادوا بيعها، و في النهاية وصلت إلى سكوير غوردون.

However, as time passed, Ginger understood that John and Squire Gordon were different from her other owners. They were always kind and gentle with their horses and she was happy to do what they asked, most of the time.

ومع ذلك، مع مرور الوقت، فهِمَّت جينجر أن جون و سكوير غوردون كانوا مختلفين عن مالكِها الآخرين. فهِم دائماً ما يكونوا ودودين و لطفاء مع خيولهم وكانت سعيدة للقيام بما يطلبونه منها، معظم الوقت.

Then one day, she saw something that showed her that some people could be good. Squire Gordon was riding her when they passed a man who worked for Squire Gordon. The man was angry with his horse and hit it hard to make it go faster. Squire Gordon did not like this.

ثم في يوم من الأيام، رأت شيئا يظهر لها أن بعض الناس يمكن أن يكونوا جيدين. كان سكوير جوردون يركبها عندما مروا برجل و الذي كان يعمل عند سكوير جوردون. كان الرجل غاضبا من حصانه و كان يضربه بعنف كي يجعله أسرع. فلم يعجب هذا سكوير جوردون.

"I've never seen a man who was so unkind to a horse," he cried. "No horse will do what you want by hurting it! The people who work for me must understand that a horse is not a machine!"

فصرخ قائلاً "لم أر أبدا رجلا قاسي على الحصان". "فأني حصان لن يفعل ما تريده منه بإيذاء! الناس الذين يعملون عندي يجب أن يفهموا أن الحصان ليس آلة!"

Ginger now began to respect Squire Gordon. After this, she decided she would not bite or kick people any more.

بدأت الآن جينجر في احترام سكوير جوردون. ثم بعد ذلك، قررت أنها لن تقوم بعض أو ركل الناس بعد ذلك.

"She'll be as good as Black Beauty soon," said John. "All she needed was for people to be kind to her."

و قال جون " أنها قريباً ما ستكون جيدة مثل بلات بيوتى ". " فكل ما تحتاجه هو أن يكون الناس لطفاً معها ."

One day, I was surprised when John brought Merrylegs back to the stable and said,

"Don't do that again, Merrylegs, or you'll be in trouble."

و في يوم من الأيام، فوجئت عندما قام جون بإحضار ميريليجس مرة أخرى إلى الإسطبل وقال: "لا تفعل ذلك مرة أخرى، ميريليجس، و ألا ستكون في ورطة."

"What did you do?" I asked him. I was very surprised, because Merrylegs always behaved so well.

فسألته "ماذا فعلت؟". لقد فوجئت جداً، و ذلك لأن ميريليجس دائماً ما يتصرف بشكل جيد.

"Oh, I didn't do much," said Merrylegs. "I wanted to give the boys a lesson, so I threw them on the ground."

فقال ميريليجس "أوه، لم أفعل الكثير". "أردت أن أعلم الأولاد درسا، لذلك ألقيتهم على الأرض."

"What?" I said, very surprised. "But you are always so careful with the children!"

قلت و أنا منهش للغاية "ماذا؟". "لكنك دائماً ما تكون حذرا جداً مع الأطفال!"

"Of course I am," he said. "I would never hurt the girls or the little children. But the older boys need a lesson sometimes," he continued. "They think that a horse is like a machine, which can continue for hours without a rest. They never think that I can feel tired. So I stopped. When I did not continue, they hit me with a stick. Then I threw them off. They need to learn how a horse feels."

فقال "بالطبع أنا كذلك"، "لم أود أبداً إصابات الفتيات أو الأطفال الصغار، لكن الأولاد الأكبر سناً يحتاجون في بعض الأحيان إلى درس". "إنهم يعتقدون أن الحصان يشبه الآلة، التي يمكن أن تستمر لساعات دون راحة، ولا يعتقدون أبداً أنني يمكن أن أشعر بالتعب، لذلك توقفت، وعندما لم أقوم بالاستمرار، ضربوني بالعصا، فطرحتهم أرضاً. يجب أن يتعلموا كيف يشعر الحصان."

"Why didn't you kick them?" said Ginger.

قالت جينجر "ماذا لم تكم بركلهم؟"

"No, I would never do that. I threw them off because I knew it would not hurt them. If I kicked the boys, I would be sold to some unkind person who would hit me all the time. We must always remember what a good place we live in."

"لا، لن أفعل ذلك أبداً، فلقد أوقعتهم لأنني أعرف أن ذلك لن يضرهم، فإذا ركلت الأولاد، سيتم بيعي إلى شخص قاس و الذي يرغب أن يضرني في كل وقت، فيجب علينا دائماً أن نتذكر المكان الجيد الذي نعيش فيه."

One morning, I was put into a small carriage to take Squire Gordon and John on a long journey for the Squire's business. I liked pulling this carriage because it was very light and easy to pull. It was raining when we left and it was also windy, with many leaves blowing across the road.

في صباح أحد الأيام، وضعت في عربة صغيرة لأخذ سكوير جوردون وجون في رحلة طويلة لأعمال سكوير. أحببت سحب تلك العربة لأنها كانت خفيفة جدا وسهلة في سحبها. كان الجو ممطر عندما غادرنا وكان أيضا عاصف. بالعديد من الأوراق تتساقط على الطريق.

On our journey we crossed a bridge, and I saw that the water of the river was really high. Many of the fields that we passed were flooded and sometimes I had to pull the carriage through water on the road.

في رحلتنا عبرنا جسرا، ورأيت أن مياه النهر كانت عالية جدا. العديد من الحقول التي مررناها غمرتها المياه وأحيانا اضطررت لسحب العربة من خلال الماء على الطريق.

When we got to the town, I had a good rest while Squire Gordon did his work. We started to go home late in the afternoon, and now there was a real storm. I heard the strong wind blowing through the big trees that we passed.

عندما وصلنا المدينة، أخذت قسطا جيدا من الراحة بينما كان سكوير جوردون يقوم بعمله. بدأنا في العودة للبيت في وقت متأخر وقت الظهيرة، والآن كانت هناك عاصفة بالفعل. سمعت رياح قوية تهب من خلال الأشجار الكبيرة التي مررنا بها.

"I will be happy when we are out of the wood," said Squire Gordon, and as soon as he said this, a big tree suddenly fell across the road in front of us with a loud CRASH!

وقال سكوير جوردون "سأكون سعيدا عندما نخرج من الغابة"، وبمجرد أن قال ذلك، سقطت شجرة كبيرة فجأة عبر الطريق أمامنا بصوت تحطم عال!

"That was close!" said John.

قال جون "كان ذلك قريبا!"

"What can we do?" asked Squire Gordon.

فسأل سكوير جوردون "ماذا يمكننا أن نفعل؟"

"We can't go forward," said John. "I think that we'll have to go back home a different way."

وقال جون "لا يمكننا المضي للأمام". وأضاف "اعتقد أن علينا العودة إلى البيت بطريقة مختلفة"

When we returned to Birtwick Park, we heard that John was to have a new helper. His name was Joe Green and he was fourteen years old.

عندما عدنا إلى بيرتويك بارك، سمعنا أن جون كان لديه مساعد جديد. وكان اسمه جو جرين وكان عمره أربعة عشر عاماً.
"Are you sure you don't need someone who is older than this?" asked Squire Gordon.
فسأل سكير جوردون قائلاً "هل أنت متأكد أنك لا تحتاج إلى شخص أكبر من ذلك؟".

"No, Sir," said John. "Joe is small, but he wants to learn and he is a hard worker. I was the same age when I started here. I had no family, but you looked after me as well as any parent. Now I live here with a good job and a good living. It is only right that I do the same to this new boy, Joe Green."

قال جون "لا، يا سيدي". "جو صغير، لكنه يريد أن يتعلم وهو عامل مجتهد، فلقد كنت في نفس العمر عندما بدأت هنا، ولم يكن لدي عائلة، ولكنك اعتنيت بي مثل كما لو كنت والدي، والآن أعيش هنا بعمل جيد وحياة جيدة، وعن الصحيح أن أفعل الشيء نفسه لهذا الولد الجديد، جو جرين."

In the next few weeks, Joe learned to sweep the floor, bring in the food and wash the carriage. He was too small to brush Ginger or me, so he practised on Merrylegs. He was a happy boy who was always singing.

في الأسابيع القليلة التالية، تعلم جو كنس الأرضية، وجلب الطعام وغسل العربات. كان صغير جداً لتنظيف جينجر أو أنا، لذلك قام باطمارسن على ميريليجز. كان صبي سعيداً كان دائماً يغني.

However, it was not always a happy time. One day, something happened that stopped Joe singing for some time.

ومع ذلك، لم يكن دائماً وقت سعيد. فذات يوم، حدث شيء ما جعل جو في التوقف عن الغناء لبعض الوقت.

John woke me up one morning when it was still dark. Almost before I could open my eyes, he was riding me past the house.

أيقظني جون ذات صباح عندما كان لا يزال الجو مظلمًا. تقريبا قبل أن أتمكن من فتح عيني، كان يركبني ماراً باطنزل.

"Ride as fast as you can!" called Squire Gordon, who was standing by the door with a lantern in his hand. "Take this note to Dr White. My wife is very ill! When you find the doctor, Black Beauty can rest at the inn."

"انطلق بالحصان بأسرع ما يمكن!" ذلك ما صرخ به سكوير جوردون، الذي كان يقف بجانب الباب بمصباح في يده. "خذ

هذه الورقة إلى الدكتور وايت. فزوجتي مريضة للغاية! عندما تجد الطبيب، بلاك بيوتي يمكن أن يستريح في الفندق."

"Yes, Sir!" cried John and he rode me as quickly as could through the village and out along the river. We went through another village, through a dark wood, up and down hills, until at last we came to the town. Everything was quiet and everyone was sleeping. Finally, we arrived at Dr White's house.

فصرخ جون قائلا "نعم يا سيدتي!" فركبني و انطلقنا بأسرع ما يمكن من خلال القرية وعلى طول النهر. ذهبنا من خلال قرية أخرى، من خلال غابة مظلمة، صعودا وهبوطا بالتلال، حتى في النهاية وصلنا إلى المدينة. كل شيء كان هادئا وكان الجميع نائمين. وأخيرا، وصلنا إلى منزل الدكتور وايت.

John knocked loudly on the doctor's door.

فقرع جون باب الطبيب بصوت عال.

"Mrs Gordon is very ill. You must come now," said John, passing the doctor the note.

فقال جون: "السيدة جوردون مريضة جدا، ويجب أن تأتي الآن." ثم أعطاه الورقة.

"I will come at once, but I have a problem. My son has taken my horse and I do not have another. Can I ride yours?"

"سأأتي على الفور، لكن لدي مشكلة، قد أخذني ابني حصاني وليس لدي حصان آخر، هل يمكنني ركوب حصانك؟"

He's very hot because he has run all the way here. But I think it's the only way to save Mrs Gordon. I'll stay here and you can ride Black Beauty."

It is hard for me to describe the journey back. The doctor was heavier than John and not such a good rider. I had almost no energy when we finally arrived back at Birtwick Park. The doctor ran into the house, and young Joe took me inside. All my hair was wet and I felt so hot.

كان من الصعب لى أن أصف العودة من الرحلة. كان الطبيب أثقل من جون ولم يكن خيالا جيدا. لم يكن تقريبا لى طاقة عندما وصلنا أخيرا إلى بيرتويك بارك. دخل الطبيب إلى المنزل جريا، وأخذني الشاب جو للداخل. كان كل شعري مبللا وشعرت بسخونة شديدة.

Poor Joe was young and did not know what to do. A horse who has just run a long way needs to stay warm and drink warm water. It is a dangerous time for the horse, so someone should stay and watch him, too. Joe did not do this. He did not put a warm blanket on me because I was hot, and then he gave me cold water to drink, before he went away and left me alone in the stable.

كان المسكين جو صغير السن ولا يعرف ما يجب القيام به. فالحصان الذي يقطع مسافة طويلة يحتاج إلى البقاء دافئا ويشرب الماء الدافئ. إنه وقت عصيب للحصان، لذلك يجب على شخص ما البقاء معه ومتابعته أيضا. لم يفعل جو ذلك. فلم يضع بطانية دافئة علي و ذلك لأنني كنت ساخنا، ثم أعطاني ماء البارد للشرب، قبل أن يذهب بعيدا ويتركني وحيدا في الإسطبل.

I began to feel very cold. All my body ached. I lay down and tried to sleep. When I woke up, John was at my side. It was difficult for me to breathe. He covered me with blankets and gave me some hot water. He then stayed with me night and day. Squire Gordon also came to see me.

بدأت أشعر ببرودة شديدة. كان كل جسدي يؤلمني. اضطجعت على الأرض وحاولت النوم. عندما استيقظت، كان جون بجانبني. كان من الصعب لى أن أتنفس. فقام بتغطيتي ببطانيات وأعطاني بعض الماء الساخن. ثم بقى معي ليلا ونهارا. أيضا جاء سكوير جوردون لرؤيتي.

Poor Black Beauty! You saved my wife's life, and now you are as ill as she was." Although I was ill, I was happy to hear that she was well again.

بلاك بيوتى المسكين! لقد قمت بإنقاذ حياة زوجتي، والآن أصبحت مريضا كما كانت هي. "على الرغم من أنني كنت مريض، كنت سعيدا لسماع أنها أصبحت بخير مرة أخرى.

Young Joe Green was very unhappy. He knew that I was ill because he did the wrong things that night. Luckily, I became well again in a few days, but I knew that John was angry with Joe.

كان الشاب جو جرين مساء للغاية. كان يعلم أنني مريض لأنني فعلت الأشياء الخاطئة في تلك الليلة. لحسن الحظ، لقد أصبحت بخير مرة أخرى في غضون أيام قليلة. ولكن كنت أعرف أن جون كان غاضبا من جو.

A few weeks later, Joe took me out to take a message on a neighbour. On the way home, we passed a carriage that was full of heavy metal bars. It was taking them to a nearby factory. The wheels of the carriage could not move because the carriage was so heavy and there was thick mud on the road. Two horses were trying to pull the carriage, but they could not. The driver was hitting them hard with a whip.

بعد بضعة أسابيع، أخذني جو بالخارج ليأخذ رسالة إلى أحد الجيران. في الطريق إلى البيت، مررنا على عربة كانت مليئة بالقضبان المعدنية الثقيلة. كانت تأخذهم إلى مصنع قريب. لم تستطع عجلات العربة أن تتحرك لأن العربة كان ثقلها جدا وكان هناك طين سميك على الطريق. اثنان من الخيول حاولوا سحب العربة، لكنهما لم يتمكنوا من ذلك. وكان السائق يضربهم بشدة بالسوط.

فقال السائق بوقاحة "أهدئي،".

"I can help you take some of the metal from the carriage, then it will move," said Joe.

قال جو "يمكنني مساعدتك فى أخذ البعض من المعدن من العربى، وبعد ذلك ستتحرك".

"Go away," said the driver. "I know what I'm doing." He continued to hit the horses.

فقال السائق "اذهب بعيداً". "فانا أعرف ما أفعله". واستمر فى ضرب الخيول.

Joe quickly rode me to the factory and found the manager. Joe told him what the man was doing.

فسرياً جو ركبني بسرعة إلى المصنع و وجد المدير . فأخبره جو بما يفعله الرجل.

"Thank you, Joe," said the manager. "I'll deal with the man. Will you tell the police what you saw?"

قال المدير "شكراً لك، جو"، " سأتعامل مع الرجل، هل سوف تخبر الشرطة بما رأيته؟"

The manager went to find the carriage with the metal and Joe went home. He told John what happened.

ذهب المدير للعثور على العربّة المعدنية وذهب جو إلى المنزل. فأخبر جون بما حدث.
